MOVING? Be sure to send us your old and new addresses well before the move. Third class mail, such as this, is not forwardable, as are other publications. Any issues not delivered due to our not having your current address becomes your loss

RENEWALS: You must renew as soon as you receive the issue containing the renewal notice in order to be sure of uninterrupted service. We can't read.you mind, so we don't know your intentions regarding renewal. Late renewals will likely result in missed issues which, in most instances, cannot be replaced.

QUESTIONS of a general nature, as well as suggestions for articles and garment patterns are requested. Send along your ideas and original patterns.

Due to an inking problem, part of the pattern on page 8 of the October issue was faint on many of your copies. Please correct your copy thus:

BE SURE TO TELL YOUR FRIENDS ABOUT PAT'S PATTERNS. MANY OF OUR SUBSCRIBERS FEEL THIS IS THE BEST PUBLICATION OF THE SORT!

Hello again to all my "old" friends, and welcome to all you "new" ones!

'Tis the season to get your machine out of mothballs and knit pretty things to wear. Christmas isn't really that far away, either, so we should start making those knit gifts. The fads for this season are: vests that are open on the side, beading, and knitted basket-weave.

This issue gives you a little of each. Patty Zaccagnini has one of the mod vest patterns in this issue and it has a beaded design on it. Her ad at the end of the newsletter lets you know how to order beads and beading needles. Beading instructions will come with the materials. I have included a pullover pattern that uses beading, an interesting cable, and a lazy cable. Full directions for knitting basket-weave have been provided by Joan Smith.

Talk about luck! The poncho pattern that I have given you this issue is lovely and toasty warm. After knitting my swatch and knitting all poncho pieces I wound all the remaining yarn onto a 7 3/4" long notebook and cut the strands at both ends. By putting two strands in every third stitch around the lower edge I had just enough yarn to complete the fringe - with not one piece left!

By the time you get this, I will have completed seven seminars done over a period of just seven weeks. As of this writing I can only tell you about the first three. June Sulikowski's at Windsor Locks, CT on Sept. 22 & 23 was small, but very nice. Try to attend hers next year. I mat many lovely people at the Utica, NY seminar the following weekend. Then, the St. Cloud, MN seminar the first weekend in October was memorable for several reasons. Most of my books sold out the morning of the first day, Lois Blystone's and my demos were literally swamped with people, and my daughter, whom I hadn't seen in over a year, came to the motel to visit! I am sure the remaining ones will be equally nice. Enjoy meeting all of you at these seminars! See you next month.

FINISHING FACED, HORIZONTAL BUTTONHOLES

Patricia Wetzel
R.D.#3, Box 253
Indiana, PA 15701
(412)463-8060

Before making the poncho which appears on the following page, let's make a sample piece in order to acquaint ourselves with the method used for finishing the buttonholes.

SAMPLE

E-wrap cast on 50 stitches, then empty the 19th needle from the right edge and return that needle to "A" position.

Mark the 10th needle from the right. Set the carriage so that when this needle is placed in HP it will not knit when it is extended (before knitting to the left), but will knit when knitting to the right. Always place this needle in HP before knitting to the left throughout the sample.

RC000. *Knit 30 rows. Break 6 pieces of contrast color yarn and manually knit one piece onto each of these needles, counting from the right:
4,5,6,14,15,16.*

Repeat from * to *, forming at least 2 more buttonholes, so you can practice this technique.
End by knitting 5 rows. The carriage is at the left.
Take the right end stitch off onto a bobby pin, paper clip, or other suitable holder, then, for our sample, scrap off all remaining stitches.

FINISH THE TOP BUTTONHOLE: Break a 12" length of yarn. With the wrong side facing you, and the facing part of the test piece at the right, pick up the 3 loops from the bottom half of this buttonhole. Make a stitch by picking up a loop beside the buttonhole to the left of the stitches already on needles (to avoid a hole). With wrong sides together, pick up the 3 loops of the bottom half of the garment section of this hole, putting ehm on the left 3 needles. Make a stitch from the right edge of this buttonhole and hang it on the last needle. There are 4 needles, each with 2 stitches. Use that 12" length of yarn to bind off loosely across these 4 needles, pulling the tail through the last stitch bound off. Now, with wrong sides together (they can't be separated at this point) and with the facing towards you, pick up the 4 loops at the top of the facing part of the garment. Use the tail of yarn remaining from the first part of the buttonhole bind off to bind off this half of this buttonhole, pulling the tail through the last stitch. Pull out all the contrast color yarn pieces and one buttonhole is completed.

Working from the top of the garment to the bottom, finish all remaining buttonholes in the same manner.

JOINING THE FACING TO THE BODY OF THE GARMENT.

Remove the holder which contains the end stitch. *Unknit 1 row and slip this loop onto a crochet hook or latch hook, behing the latch. Pull the top 2 loops of the ladder which was created when the 19th stitch was dropped, through the stitch on the latch hook. Slip these 2 ladder loops behing the latch, unknit the next edge stitch and pull it through the 2 loops that were on the hook.* Repeat to toe bottom and fasten off.

PONCHO

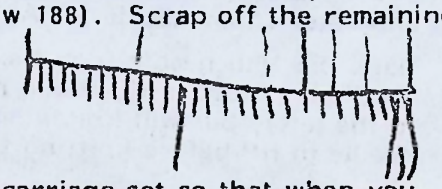
YARN: 1 pound of 2 ply sport weight wool from Bartlett Yarns in Harmony, ME

GAUGE: T 10, 6.5 sts & 9.5 rs = 1" on an SK560

SIZE: 96" around lower edge, 20" long

BACK AND SIDES (make 3 alike)

E-wrap cast on 156 stitches.
RC000. Knit to row 190, decreasing 2 stitches each side of every 8th row 16x (row 124), then every 6th row 10x (row 188). Scrap off the remaining 52 stitches after knitting the 190th row.



RIGHT FRONT

E-wrap cast on 94 stitches.
RC000. For the length of the piece, have carriage set so that when you extend the 10th needle from the left edge, it won't knit, but will knit on the next row. Maintain this fold needle throughout. Knit to row 190, decreasing as for other pieces, but only on the right edge. AT THE SAME TIME form buttonholes on the 4th, 5th, 6th, 14th, 15th, and 16th needles in from the left edge on rows 66, 96, 126, 156, and 186 (the buttonholes are faced). At row 190 take the first stitch at the left off onto a holder and drop the 19th stitch from the left completely to the bottom of the piece to form a ladder. Scrap off all remaining stitches.

LEFT FRONT

Work as for right front, reversing all shaping and omitting buttonholes, but marking button placement.

FINISHING

First, finish the buttonholes. Then latch the ladder stitches to the edge stitch by dropping one edge stitch at a time and pulling two ladder bars through it, then undo the next edge stitch and pull it through the two ladder bars that are now on the crochet hook. Continue like this to the bottom of the piece and fasten off. Join the facing at each side of the fronts in this manner to the body of the poncho. Join all seams, leaving fronts open, of course. Sew buttons in place.

Neckband: Wrong side facing you, pick up all stitches from scrap, having the fold needle stitches on their own needle, facing/main body stitches occupy one needle, and across all other neck stitches decrease, putting 2 stitches on each needle. Carriage at the left, bind off the stitches from the first 6 needles, then knit to the right and bind off the 6 needles this side. Knit 9 rows over the remaining stitches, doing the first row with main yarn plus ravel cord. Turn work and knit 1 row. Turn work and knit 9 rows. Hang a hem from the marked neck edge and bind off.

Fringe: Wrap remaining yarn around a 7 3/4" flat object and cut at both ends. Put two strands in every third stitch around the bottom. Steam.

Knit mesh row at T.8-8. Hang cast on comb and weights. Knit 1 row both beds knit.
Use transfer tool to transfer sts on top bed only. Transfer as follows;
1 to 2/ 3 to 2/ 4 to 5/ 6 to 5/ 7 to 8/ 9 to 8/ etc.(You will have 3sts on some needles with 2 empty needles inbetween. Keep all needles in 'B' postion. Knit 2 rows.
Repeat the transfering as before. Knit 4 rows. Transfer sts into 1X1 rib.
RC 000
Decrease T. down one 'click' every 3 rows until at T. 3-3. Knit remaining rows at 3-3 until 70 rows are knitted. Remove on scrap or on garter bar.Turn collar over and decrease 20sts evenly across. (This helps make a nice flare) Rehang WRONG side of body AWAY from you on these needles starting with the center front. THE COLLAR WILL BE JOINED AT THE FRONT. Bind off LOOSELY, and lift the bound off sts off the gates as you go.

FINISHING:
Seam front collar area. The collar tends to come down to a peak at the front and blocking will help this, and set the frill on the edge. Seam sleeves and body. Hide all tails.

A GUIDE FOR KNITTING BASKET-WEAVE

Joan Smith

"Marge McKenzie was the first one to ask me to put this pattern on paper. Little did either of us know it would take me four years to do it. This pattern starts out with a row of triangles as a base, so you can do your ribbing first or add it later. The original McCalls' pattern called for blocks of 6 stitches, but you can adjust this for any size block. I find 10 stitches a good number to work with as it counts up easily and simplifies something, at least.

You will need a transfer tool the size of the block you work with, and adjustable 7 prong or a 10 prong, or even a piece of garter bar. Decide what size, the colors you like, and you're ready to try out a 6 stitch by 6 block swatch for size."

BASE TRIANGLES:

Cast on 36 sts with "e" wrap and k 2 rs, carr on right. Put all N in HP except 1st N on right, k 2 rs, making sure all N in HP STAY THERE! Put 2nd N in WP, k 2 rs over 2 sts. Continue thru 6th N, k 2 rs each time, carr on right.
Put 7th N in WP, k 1 r to left, put 1st 6 N with triangle in HP, k 1 r to right. Always check HP N's as they will pick up any passing thread, given the chance.
Continue to last N, k 1 r to left only, carr on left, break yarn.

SECOND ROW, END TRIANGLES, AND BLOCKS:

This row starts with a triangle as above, goes to blocks, and ends with a different triangle (I didn't promise this would be easy).
Attach second color, all N in HP, put 1st N in WP, k 2 rs, cont to 6th N. Get out your 7 prong transfer tool, make a 6 prong out of it, pick up the triangle you just knitted and move 6 spaces to the left, pulling 6 N to WP for them. This will leave 6 empty N, with the side of the first base triangle below them. Pick up 6 loops from it and place on empty N. You now have 12 N in WP, k 1 r to right, put 1st 6 N on left in HP, k 1 r left. This starts your first block, built on the base triangle side.
With transfer tool, pick up all 6 sts of the next base triangle to right of block and move them 1 space to the left, overlapping the 6th st of block, leaving an empty N on right of base triangle sts. Return these 6 N to HP, 5 with sts, 1 empty. K 2 rs. Pick up remaining 5 sts, move 1 sp to left, return N to HP, k 2 rs, etc., to last st from base triangle, k 2 rs. This will leave you again with 6 empty N to fill from the side below. Put these in WP, k 1 r to right across 12 sts, put 6 block N in HP, k 1 r left. Continue to end of row.
When you finish your 4th block, you are left with one triangle side and the last 6 N you just emptied. Pick up the loops, k 2 rs, and, since this is the other end triangle, dec on right by transferring the 6th st to the 5th N, k 2 rs, dec 5th st to 4th N, etc., to last st, k 2 rs, carr on right, break yarn.
Now you have a nice row of blocks to admire, strained eyes and a stiff neck, so take a break before:

THIRD ROW, ALL BLOCKS:

Attach third color or color of base row, pick up st from end of last row, move 6 N on right to WP, and put the st on the 1st N on right, pick up sts to empty N from end triangle.
All other N in HP, k 2 rs over these 6 N. Use transfer tool to move st of next block 1 space to right, k 2 rs. Continue across, keeping eye on HP N's before knitting. This row of blocks are like the second row, but reversed in direction.

FOURTH, AND ALL EVEN NUMBERED ROWS:

This is a repeat of second row, triangles and blocks from left to right.

FIFTH, AND UNEVEN NUMBERED ROWS:

As for third row, these are all blocks, and also should be used as your decreasing and finishing row.

DECREASING AND FINISHING TRIANGLES:

You start these much the same as second row triangles, but as you decrease on one side you are transferring sts to it on the left. FUN!!!
Pick up your last row sts to start 1st block on right side, k 2 rs, transfer st of next block 1 sp to right, dec by putting 1st st on 2nd N, k 2 rs, cont to last transfer, always dec 1 st on right side of block you are knitting. It should work out even, but if you have more transfer sts remaining than dec st, just omit the dec one time. Pick up st tto empty N of next block, k 1 r to left, put 1st 6 N in HP, k 1 r to right, transfer, and dec as before across. To finish, k 2 r plain across all N. Cast off.

A LAST CAUTION, HINTS, AND TIPS:

Those HP N really have to be watched. Use your transfer tool to run along the back ofneedle butts before you knit in either direction. You will have enought to do without extra ripping. About weights, they are unnecessary here - just hold the block or triangle from below while you knit back and forth. This will stretch out the side you will pick stitches from and be all the weight you need. Don't pull, just hold. This is an unusual design, very striking, and well worth the time and effort. Just be sure to do it on a spare machine in case you want to knit another faster sweater - or three - in the meantime.

I want to give lots of thanks to Mitzie Church and Hester Kight for their help in figuring this out and to Hester for showing her version and mine at the Houston Seminar, September 8 & 9,1984.

T 6.
Transfer stitches as required so that these needles are empty and in "A" position: to the right side of Ø - 9 and 10, 29 and 30, 45 and 46(for larger sizes) --- to the left side of Ø - 8 and 9, 28 and 29, 44 and 45 (for larger sizes)

ALL SIZES knit to row 3 and insert a bead on the 1st stitch to the right of Ø plus at the 17th and 37th stitch at each side of Ø thus: unknit the last row at this stitch and drop the bar to the purl side. Lift the stitch onto a bead needle and slip a bead onto the stitch. Using a single prong transfer tool, replace the stitch containing a bead onto the machine needle. Pull all these beads down slightly and carefully knit, making sure the fabric press can safely pass across the beads.
Continue to row 6.
At row 6 make a cable twist at each side of the beads this way: Lift the single stitch at each side of the bead stitch off onto single prong tools and cross, replacing to the opposite sides (stitch 36 goes onto needle 38 and stitch 38 goes onto needle 36). Do this cable twist at each bead.
Also, on row 6 turn each serpentine stitch: move the stitch at the left of the two empty stitches to the empty needle on the right - do this at each location across. 2 needles side-by-side remain in "A" position.
Knit to row 12 and turn each serpentine stitch: move the stitch at the right of the two empty stitches to the empty needle on the left - do this at each location across. 2 needles side-by-side remain in "A" position.

The instructions above explain how to make a serpentine turn, how to insert a bead, and how to make a cable twist.

Beads are inserted every 18th row.
Serpentine turns are made every 6th row, first to the right, then to the left as instructed above.
Cable twists are made alternately on 6th and 12th rows.

YARN: Confetti from New Jersey Yarn Mills
GAUGE: 8.5 sts & 11 rs = 1" @ T 5
MACHINE: KH910
SIZES: small, medium, large

This blouse is made on the Brother 910. It has a stockinette body with fishnet lace sleeves. It is knit with Confetti, but you could use the yarn of your choice if you can get the same gauge. The main thing I wanted to show you is programming the machine to knit the blouse in both lace and stockinette at the same time.

Medium size: 1,102,1,2 y89,y89,y51 1,2 g51,g51,g89

Large size: 1,102,1,2 y97,y97,y55 1,2 g55,g55,g97 Press cf.

Knit in st st and lace as programmed to RC 204, 214, 226. Using 2 different colors of ravel cords, hand knit the center 72,76,76 sts, one row with each color cord. Continue knitting til RC 220,232,242. Mark each edge st. Continue knitting til RC 310,332,344. Turn machine off. BO 10 sts at the beg of the next 2 rs. Knitting in stockinette, k til RC 396,436,456. Transfer sts for a 2x2 rib. T 2/2 k til RC 424,464,484. BO.

If you like, you may crochet along sleeve edges or hang on machine and rib for about 1". BO. Seam sleeve and underarm seams.

Crochet into each garment st holding onto the ravel cords. Pull ravel cords out and let neckline curl to the right side. No finishing required.

NOTE: You may also use a different lace pattern if you desire. Play and see what you can come up with.
